

IN THE CLAIMS

This listing of claims replaces all prior versions, and listings, in this application.

Claims 1-77 (canceled)

78. (currently amended) A complex comprising a narrow molecular weight distribution polymer comprising unit (I)

(I)

wherein R is selected from the group consisting of hydrogen and C₁-C₁₈ alkyl, C₂-C₁₈ alkenyl, C₇-C₁₈ aralkyl, C₇-C₁₈ alkaryl, C₆-C₁₈ aryl, carboxylic acid, C₂-C₁₈ alkoxy carbonyl, C₂-C₁₈ alkaminocarbonyl, or any one of C₁-C₁₈ alkyl, C₂-C₁₈ alkenyl, C₇-C₁₈ aralkyl, C₇-C₁₈ alkaryl, C₆-C₁₈ aryl, carboxylic acid, C₂-C₁₈ alkoxy carbonyl, C₂-C₁₈ alkaminocarbonyl, substituted with a heteroatom within, or attached to, the carbon backbone; R¹ is selected from the group consisting of hydrogen and C₁-C₆ alkyl groups; and salts thereof; or unit (II)

(II)

in which R, R¹ and R² are defined as above; R³ is selected from the group consisting of C₁-C₁₈ alkylene, C₂-C₁₈ alkenylene, C₇-C₁₈ aralkylene, C₇-C₁₈ alkarylene, and C₆-C₁₈

arylene; L is a divalent linker joining the blocks; and m and n is each an integer 1 or greater than 1; or a salt thereof, and a substance that has pharmacological activity against a pathogenic organism; wherein the polymer and the substance are associated in a complex by non-covalent bonds.

79. (previously presented) The complex as claimed in claim 78, wherein the pathogenic organism is predominantly but not exclusively an intracellular organism.

80. (previously presented) The complex as claimed in claim 79, wherein the pathogenic organism is an intracellular organism that exists and/or persists in cells selected from the group consisting of cells of macrophage origin and other antigen presenting cells.

81. (previously presented) The complex as claimed in claim 78, wherein the pathogenic organism is selected from group consisting of

- a) organisms that cause superficial mycoses; organisms causing tinea; organisms causing thrush; Malassezia infections; organisms causing otomycosis; and organisms causing keratomycosis;
- b) Candida species that cause invasive and chronic fungal infections; Aspergillus species; Cryptococcus neoformans; organisms causing mucormycosis; Fusarium species; Trichosporon species; organisms causing blastomycosis; Sporothrix species; Sporotrichum species; organisms causing histoplasmosis; organisms causing African histoplasmosis; organisms causing coccidioidomycosis; organisms causing paracoccidioidomycosis; and infections caused by Penicillium mameeffei;
- c) organisms that cause mycobacterial diseases;
- d) members of the Schistosoma family that cause schistosomiasis;
- e) organisms that cause typhoid and paratyphoid fevers;
- f) organisms that cause toxoplasmosis;
- g) organisms that cause human African trypanosomiasis;
- h) organisms that cause American trypanosomiasis;
- i) organisms that cause malaria;

j) organisms that cause HIV and HTLV infections; and
k) organisms that cause *Pneumocystis carinii* infections.

82. (previously presented) The complex as claimed in claim 78, wherein the pathogenic organism causes leishmaniasis.

83. (previously presented) The complex as claimed in claim 78, wherein the substance that has pharmacological activity against a pathogenic organism is amphotericin B.

84. (previously presented) The complex as claimed in claim 78, wherein the pathogenic organism is selected from the group consisting of an organism that causes tuberculosis, that causes tetanus, that causes anthrax, that causes cholera, that causes diphtheria, that causes measles, that causes mumps, that causes rubella, Hepatitis A, Hepatitis B, that causes influenza, that causes herpes zoster, that causes poliomyelitis, that causes rabies, that causes smallpox, that causes yellow fever, that causes varicella, herpes simplex, and an organism that causes leishmaniasis.

85. (previously presented) The complex as claimed in claim 83, wherein the polymer has a molecular weight from 4,000 to 100,000

86. (previously presented) The complex as claimed in claim 78, wherein the polymer has a polydispersity of 1.7 or less.

87. (previously presented) The complex as claimed in claim 78, wherein the polymer has a molecular weight of 100,000 or less.

88. (previously presented) The complex as claimed in claim 78, wherein the polymer has a molecular weight of 4,000 or more.

89. (previously presented) The complex as claimed in claim 78, wherein the polymer has a molecular weight from 4,000 to 100,000.

Claim 90 (canceled)

91. (withdrawn) A complex comprising a narrow molecular weight distribution polymer comprising unit (III) or (IV)

in which R, R¹, R² and R³, L, m and n are defined as in claim 10, R⁴, R⁵ and R⁶ are selected, independently, from the same groups as R, R¹ and R², respectively; Q denotes a group that is not cleaved or is not substantially cleaved under the conditions used to produce the polymer; and p denotes an integer 1 or greater than 1.

92. (previously presented) A pharmaceutical preparation comprising a complex as claimed in claim 78 and a pharmaceutically suitable carrier.

93. (previously presented) The pharmaceutical preparation as claimed in claim 92, further comprising a delivery system adjuvant.

94. (withdrawn) A method for treating an infection by a pathogenic organism, the method comprising administering to a subject in need of such treatment an effective amount of a complex as claimed in claim 78.

Claims 95-97 (canceled)

98. (previously presented) The complex as claimed in claim 85, wherein the polymer has a polydispersity of 1.7 or less.

99. (previously presented) A pharmaceutical preparation comprising a complex as claimed in claim 85 and a pharmaceutically suitable carrier.

100. (previously presented) The pharmaceutical preparation as claimed in claim 99, further comprising a delivery system adjuvant.

101. (withdrawn) A method for treating an infection by a pathogenic organism, the method comprising administering to a subject in need of such treatment an effective amount of a complex as claimed in claim 85.

102. (new-withdrawn) A pharmaceutical preparation comprising a complex as claimed in claim 91 and a pharmaceutically suitable carrier.

103. (new-withdrawn) The pharmaceutical preparation as claimed in claim 102, further comprising a delivery system adjuvant.

104. (new-withdrawn) A method for treating an infection by a pathogenic organism, the method comprising administering to a subject in need of such treatment an effective amount of a complex as claimed in claim 91.
